

```
[root@ijfiegbpwny5a@29311@m@u@e.192.168.2.130@w.192.168.2.127]# cat /etc/init.d/rc.mtd
#If mtd size have been changed, correct it
/bin/mtd_correct

# check MTD partition and mount it, add by Mars Cheng
mount -t jffs2 /dev/mtdblock1 /mnt/mtd 2> mtd_check.tr
result=$(grep "failed" mtd_check.tr)
rm mtd_check.tr
if (test -n "$result");then
    echo "No JFFS2 fs info on mtdblock1, creating it..."
    flash_eraseall /dev/mtd1
    mount -t jffs2 /dev/mtdblock1 /mnt/mtd
else
    echo "Has JFFS2 on mtdblock1"
fi
```

mtd-utils工具只能应用与/dev/mtdN的MTD字符设备

mount、umount命令只对/dev/mtdblockN的MTD块设备有效

/dev/mtdN和/dev/mtdblockN是同一个MTD设备的同一个分区（N一样）
